

## WEDNESDAY, MAY 18, 2022 GENERAL SESSIONS

### 11:00am Registration Opens

#### 3D Boot Camp for O, P & Pedorthics (5 credits)

**1:00pm-2:00pm** – Introduction and overview of why, what and how of 3D printing. What does additive mean? How do I use 3D in my daily practice? Joe Fairley, CPO

**2:00pm-3:00pm** – How to scan for AFO's in neutral using a tri-planer foot fixture (plus scanning other shapes such as TLSO and BK/AK), Jon Naft, CPO

**3:00pm-4:00pm** – Environmental Impact of 3D Printing Foot Orthotics (3D printing of foot orthotics reduces landfill waste by 90%. Learn how accurate and precise production methods can significantly reduce fabrication waste.) Seamus Kennedy, CPed, BSM(ech)

**4:00pm-5:00pm** – Viability of 3D Printing for Lower Extremity, Cissi Schaffer & Rick Noel, PVA Med  
Learn the steps in a 3D printing workflow for lower extremity, point out what to look for and how it can be implemented into a practice

#### 5:30pm-3D Print & Pub Night hosted by PVA Med!

- Tour PVA'S brand new state-of-the-art manufacturing facility
- Watch live demonstrations of the Emergence PRO™ 3D printer and the Carver PRO-S™
- Network with forward-thinking industry leaders
- Note: Drinks and dinner are included

#### Prosthetic Workshop (4 credits)

**1:00pm-5:00pm** - iFIT Transtibial & Transfemoral Workshop- Getting Patients Up and Walking In Less Time, Josh Mullins

This lecture will discuss the benefits and unique features of the iFIT immediate fit adjustable transtibial and transfemoral prosthetic systems. We will review examples of patients and how their iFIT prosthesis was modified by the practitioner to fit to their limb. Case studies will be presented from patients fit with the iFIT prosthetic to show how the system helped each patients achieve their mobility goals.
